- 1. Spartak Stadium, Moscow
Architect: ar.te.plan, Dortmund
- 2./3. Shopping Center „VESNA“, Moscow

Development of corporate activities

First projects in the former Soviet Union ASSMANN BERATEN + PLANEN was already planning in 1975, e.g. within the framework of the Kursk Steelworks.

Up until the fall of communism in 1989 further projects were following, including for example the German Embassy in Moscow, Sheremetyevo 2 Airport and Bashkiria Polyester Factory. After the fall of communism ASSMANN expanded with projects especially in the fields of food and automotive industries. In 1998 it came to the decision to engage in an active project development in Russia and the former GUS states.

A closer cooperation with the Oblast (Region) of St. Petersburg was following as well as several planning activities in Greater Moscow including customs facility, Mercedes Benz Moscow branch and others.

In January 1998 an ASSMANN BERATEN + PLANEN Representative Office was opened and in 2000 OOO ASSMANN BERATEN + PLANEN, Moscow, was set up as an independent planning office, equipped with comprehensive licences.

Additionally in the years 2005 resp. 2007 branches in St. Petersburg and Kaluga were opened.

OOO ASSMANN BERATEN + PLANEN

is equipped with comprehensive licences, among others for total design services in the Russian Federation.

4. Airport Sheremetyevo, Terminal 1, Terminal 2 and Railway Station, Moscow
5. Volga Brewery (Heineken), Nizhniy Novgorod
6. Egger-Plant for the Treatment of Timber Products in Shuya
7. VW Automobile Plant, Kaluga
8. Print Shop Dolgoprudny
9. Daimler Chrysler, Aftersales Center, Moscow
10. Agricultural Machinery Plant for Claas, Krasnodar

Situation today

With its present staffing level of more than 40 permanent employees, the offices in Moscow, St. Peterburg and Kaluga are in a position, in association with the other ASSMANN offices, to offer the same broad range of ASSMANN services.

We are both a reliable consultant and an innovative planner for our international and Russian clients.

OOO ASSMANN BERATEN + PLANEN in Moscow offers security to investors within a network with recognised Russian and western European cooperation partners, all with facilities in Russia.

Services and licences

With its many years of experience, ASSMANN is familiar with the complicated Russian planning and approval procedures, especially with regard to the legal peculiarities and all the ins and outs of the building regulations. Our Moscow office has all necessary licenses and is a member of the Russian Chamber of Architects, so that we are also kept constantly up to date with the latest publications. Both technically and legally we are in a position to assist companies at all stages of their projects, from the finding of a site through the total design phase and all the way to handover and commissioning. Experienced licensing engineers are available in our Moscow office to deal with all aspects of this process.
